Professional Summary

Motivated professional with hands-on experience building scalable, responsive web applications using modern JavaScript technologies. Proficient in React.js, Node.js, Express.js, and MongoDB with focus on REST API integration, authentication workflows, and performance optimization. Experienced in modular frontend architecture, backend reliability, and Agile development practices. Detail-oriented team player committed to delivering high-quality, user-focused solutions.

Technical Skills

Languages: JavaScript, Python, Java, HTML, CSS

Frontend: React.js, Tailwind CSS, Responsive Design, Context API

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, Netlify, VS Code

Development Practices: CRUD Operations, API Integration, Modular Architecture, Agile SDLC, CI/CD

Projects

Ritual Cakes – E-Commerce Web Application — React.js, Node.js, Express.js, MongoDB
- Developed a responsive e-commerce platform with user and admin dashboards using React.js.
- Implemented REST APIs with JWT-based authentication and role-based authorization.
- Optimized MongoDB queries and implemented full CRUD functionality for products and orders.

Food Fly – Food Delivery Platform — React.js, Node.js, Express.js, MongoDB
- Built a full-stack food delivery system featuring user, manager, and order management dashboards.
- Integrated secure authentication and order processing APIs using Express.js.
- Designed a mobile-first UI ensuring cross-device compatibility and performance.

Visual Classroom – Online Learning Platform — React.js, Node.js, Express.js, MongoDB
- Created an interactive learning portal with structured course modules and role-based dashboards.
- Connected frontend components to backend REST APIs for dynamic data rendering.
- Improved maintainability through reusable and modular React component architecture.

Hiring Hub – Job Portal Application — React.js, Node.js, Express.js, MongoDB
- Designed a job portal enabling recruiters and applicants to manage profiles and applications.
- Implemented job posting, application tracking, and authentication workflows.
- Handled backend logic with REST APIs and optimized MongoDB queries.

Project Experience

Full Stack Web Developer — Academic & Personal Projects
- Built and deployed full-stack web applications using React.js, Node.js, Express.js, and MongoDB/MySQL.
- Implemented RESTful APIs, authentication workflows, and role-based access control.
- Used Git and GitHub for version control and collaborative development in Agile environments.

Education

Bharati Vidyapeeth (Deemed to be University) — **Jul 2025 – Present**
Master of Computer Applications (MCA) – Expected Graduation: 2027 — *Belapur, Navi Mumbai*

University of Mumbai — **Jul 2023 – Apr 2025**
Bachelor of Science in Information Technology — *Mumbai, India*

Certifications

JavaScript & CSS Bootcamp – CodeKaro

Web Technologies (HTML, CSS, JavaScript, React) – QSpiders

SQL – QSpiders

Core Java – QSpiders
